You will have more success creating a schedule on Skyward Arena Scheduling if you plan ahead. Make sure you use the online Master Schedule*, Course Catalog*, and AFHS Course Options* list to plan your schedule for next year. Full-year classes should be kept the same class period throughout the year, when possible. If you have to move it to a different period 2nd semester, you must keep it with the same teacher. Make sure you create a *full schedule* for both A days and B days.

*AFHS Course Options are on the backside of this paper. The Master Schedule will show all classes, class periods, and teachers who teach those classes, and the Course Catalog gives a description of every class offered at the high school. Both can be found on the AFHS main web page: afhs.alpineschools.org
